10	API Authentication	5
11	Security Certificates	6

1 Introduction

- About This Guide
- Role Types
- Role Inheritance
- Duty Role Components
- Aggregate Privileges
- Guidelines for Configuring Security in Oracle Applications Cloud

2 Security Console

- Overview
- Configure the Security Console
- Retrieve Latest LDAP Changes
- Security Visualizations
- Options for Viewing a Visualization Graph
- Visualization Table Display Options
- Generate a Visualization
- Simulate Navigator Menus in the Security Console
- Analytics for Roles
- Analytics for Data Resources
- FAQs for Security Console

3 Implementation Users

- Overview
- User Accounts
- User Account Details
- Add User Accounts
- Compare Users
- Copy Roles from One User to Another
- Guidance for Assigning Predefined Roles
- Assign Roles to an Existing User
- Reset Passwords
- Delete User Accounts
- How to Get User Sign-in Sign-out Information?
- Create Notification Templates
- Synchronize User and Role Information
- Reset the Cloud Service Administrator Sign-In Details

4 User Categories

- Overview of User Categories
- Define Password Policy
- Enable Notifications
- Add Users to a User Category
- Notifications for Users Based on Status
- Configure a Custom Password Policy
- Enable Multifactor Authentication
- Enable Passwordless Authentication
- FAQs for User Categories

5 Application Users Management

- Overview of Application Users
- User and Role-Provisioning Setup Options
- User Account Creation Option
- User Account Role Provisioning Option
- User Account Maintenance Option
- Set the User and Role Provisioning Options
- Provision Abstract Roles to Users Automatically
- Users
- User Accounts
- FAQs for Application Users Management

6 Data Security Policies

- Data Security
- Advanced Data Security
- How Data Resources and Data Security Policies Work Together
- FAQs for Data Security Policies

7 Role Provisioning, Role Assignments, and Role Configuration

- Role Mappings
- Create a Role Mapping
- Role Provisioning and Deprovisioning

- Autoprovisioning
- User and Role Access Audit Report
- Data Access
 - Assign Data Access to Users
 - Revoke Data Access from Users
- View Role Information Using Security Dashboard
- Review Role Assignments
- Review Role Hierarchies
- Compare Roles
- Create Roles in the Security Console
- Role Copying or Editing
 - Security Console Role-Copy Options
 - Copy Job Role and Abstract Role
 - Edit Job Role and Abstract Role
- Create Job Role and Abstract Role from Scratch
- Copy and Edit Duty Roles
- Assign Roles for Access to Manage Scheduled Processes
- Roles That Give Workflow Administrators Access
- User Role Membership Report
- Create a Custom Role with Limited Access
- Manage Roles in Custom OAuth Client Applications Using Application Extensions Page
- FAQs for Role Provisioning, Role Assignments, and Role Configuration

8 Location-Based Access

- Overview of Location-Based Access
- How Location-Based Access Works
- Enable and Disable Location-Based Access
- FAQs for Location-Based Access

9 Single Sign-On

- Oracle Applications Cloud as the Single Sign-On (SSO) Service Provider
- Configure Single Sign-On
- FAQs for Single Sign-On

10 API Authentication

- Configure Outbound API Authentication Using JWT Custom Claims

Configure Outbound API Authentication Using Three Legged OAuth Authorization Protocol

Configure Inbound Authentication

Is there a recommended format for the public certificate?

11Export and Import of Security Setup Data

Export and Import of Security Console Data

Export and Import HCM Security Setup

11 Security Certificates

Overview

Types of Certificates

Sign a X.509 Certificate

Import and Export X.509 Certificates

Import and Export PGP Certificates

Delete Certificates
